

AURAS sliding panel

AURAS from the DREAM Curtain line, is a panel made of overlapping, translucent fabric strips, lightly fastened to a transparent lining. With its striking yet clutter-free style, Auras sliding panels highlight the elegance of urban, contemporary settings. They function beautifully as decorative screens or room-dividers in modern spaces and curtains for all kinds of windows, including roof-windows. Auras Duet presents an advanced, reversible design with a panel of DREAM LINEA as backing.

Auras offers a selection from the 2 textures -Classic or Luminare-, 24 colors and their unlimited combinations. The sliding panels come in **heights** of 100-270cm¹⁾. Height' refers to the total height from the top of the curtain to the tip of the strips. The **standard widths**¹⁾ are 60 and 70cm.

Suitable for all kinds of sliding panel systems, Auras is easy to install. The sliding panel comes with a V-Head - a concealed Velcro attachment and a hem rod-pocket with the weight bar. Machine washable at 30°, Auras normally does not require ironing. The standard delivery time for an Auras is 12-18 business days. Each DREAM Auras is a custom-made product, certified for quality.

¹⁾ **Multistyle** caters to special size and design preferences. Please refer to [SPECIAL](#)
